CAMP NOTES. (By our Special War Correspondent.) Stonecutter's Island, Oct. 11.

The troops assembled at Headquarters on Saturday afternoon, and marched off shortly before three o'clock, headed by the drum and fife band playing 'The Old Folks at Home.' Certainly the sentiments expressed in this old song were not in accord with the hilarity of the men. I ought to add the reservation, 'as a body,' however, zling rain there may have been simmering in the minds of the men selected for first night guard, a sense of regret at leaving home comforts. The Band was, if anything more jubilant than the Field Battery, and I hear it stated that the cricket ground a large crowd had assembled, | Chronicle. including several well-known faces who donned the yellow putties at a later hour,

and found their way into camp. Sir John Carrington, marched at the head of the column to the Murray Pier. Here the report upon the trade of China for 1896, troopship Prudence, flying the Corps flag, prepared by Mr Grosvenor, of the British was waiting. The embarkation was quickly effected, and as the Printence steamed band again broke loose. A pile-driving machine on the wharf was

bled past in single file and formed up in line, and marched into Camp. Watling's sixteen English miles, this being the first brigado had beennt work since early dawn, and the camp was in very handy and habitableorder. Company drill at 5 p.m. brought out a good muster, and was gone through in good spirit. An hour or two was afterwards devoted to pegging and trenching. The No. 1 guard was mounted at six & clock and they set to work to make the guard tent comfortable, and ready to receive visitors! After dinner till 'lights out was occupied by the men in finding their way about the camp, the canteen, in charge of Gunner Brown, being one of the earliest but the adoption of particular western discoveries, and in and around which was centred a great deal of interest till late hour. RAILWAYS IN CHINA. FUTURE PROSPECTS.

The following extract is made from the

The year 1896 has witnessed a real

advance in the direction of opening up the

country by means of railways. The line

connecting Tientsin with the capital had, at the close of the year, been completed to within thirty miles of Poking, and at the present moment trains are running to within half-an-hour's ride of the city gate. A beginning has already been made by the construction of the line from Peking to Lu Kou Chiao, a distance of some stage of the railway which is to connect the capital with the Yangtsze port of Hankow. Shong Taotai, to whom the arrangements for the construction of the Peking-Hankow line have been entrusted by the Chinese Government, is endeavouring to raise the necessary capital, which will unquestionably have to be drawn from a foreign source, as the Chinese have proved to be unable or un willing to subscribe it. The development of the country by means of railways can have none but beneficial results upon foreign commerce with China methods such as the telegraph has not hitherto been attended by any revolution in the attitude of the Chinese towards western ideas or modes of thought, and in the absence of other-indications, it would

be easy to exaggerate the importance of the

THE OPIUM TAX IN CHINA. -The potentialities of Chinese-grown opium as a source of revenue have been broughs to the notice of the Imperial Government, which invited Sir Robert Hart to formulate a scheme of taxation. Sir Robert suggested that the drug should be taxed Tla. 60 per picul, and that the collection in the thirteen chief opium-producing provinces thirteen provinces at 334,000 piculs-Members of the Anti-Opium Society please note that the not import of Indian opium into China last year was only 49,000 piculs-which might, he considers, be made to yield the Government a revenue of Tls. 20,000,000; though he considered that many years would be required to reach this figure. The matter was referred, of course, to the Board of 818 Revenue, which—equally of course—deprecates the introduction of foreigners into

multiplied nearly twenty fold-the Board admits that 'only a little over a million' has been accounted for of late-offers far too rich a field for squeezing to be let go. It recommends, accordingly, that the collection be left in the hands of the provincial officials, and hopes to reach Sir Robert's estimate more quickly by their means. If Indian opium can pay Ils. 110, Chinese buts says that M. Hanotzux has agreed to opium can pay Tls. 60; and Chinese public the abrogation of Article 4 in the Siamese opinion will admit that it is a fair object for taxation. Not much confidence, how-(The article in question prohibits the ever, will be felt in any great success on maintenance of any armed force in the pro- Chinese 'official' lines. POST OFFICE ANOMALIES.

Mr Henniker Heaton has a keen eye for anomalies in the administration of the Post the taste and fancy of the authorities, and Thus 'reelmaker,' bootmaker,' and 'coachmaker' pass as single words, but the districts of Satara mid-Poona; and 31 | 'soapmaker,' blindmaker, and 'solemaker'

area is double; King's Cross, Edge Hill, South Kensington, with only fifteen, costs an extra halfpenny. And these instance, should more be exacted for 'Dry 'lloyal' than for 'Ross Royal'? And is it on arithmetical grounds that 'fortypence'

is considered two words and 'twenty-perice' only one? 'Cashbook,' for some occult reason, is reckened as double, while 'hankbook ' remains single; ' flower merchant' and 'fowl dealer' are treated as while 'corn merchant' and 'fish dealer' are left in single blessedness; 'teacloth' is called two, words and 'table cloth! only one, and 'seedloaf' pays double the price of 'sugarloaf.' Passing to abbreviations, you may wire that you 'can't, 'don't,' or 'shan't' at the rate of a halfpenny, but if you 'haven't' or 'shouldn't' you must pay a penny. There seems to be a subtle appropriateness in this. But why year of Her Majesty's reign. I have St. Paneras is one word and Pancras Street now to ask the Government for a cheque two, why Moreton-in-the-Marsh, Littletonupon-Severn, and Chester-le-Street are reckoned as single, but North Kensington, dance with resolution 3 passed at the meet- Hanging Ditch, and Chester Street are each ing of the Jubilee Committee, held on the two, is as puzzling to the world at large as it must be to all the MacAlisters to discover His Excellency the Governor, be placed on why their signature is rated at a penny deposit with the Hongkong and Shanghai while any MacDonald can sign his name

-THE 'TROPICAL AGRICULTURIST' has now in assured position in its large circulation in Ceylon, Southern and even Central and Northern India, the Straits Settlements, Sumatra, Java, Borneo, Northern Australis, Queensland, Central America, Natal, Mauritius and the West Indies. From all sub-tropical planting settlements we have had cordial approval of the publication and an encouraging measure of support. The English, Indian and Colonial Press have spoken in commendatory terms of the T.A., as also Directors of Public Gardens from Sir Joseph Hocker, F.B.s., downwards, and to have all planters. No planter should be without it.

Subscription, including postage, in advance; £1 sterling. Rupees 12. Dollars 5. Single copies 2s or R1; back copies 3s or R1 50. Any one of the Four Volumes completed, (1881-2; 1882-3; 1883-4; 1884-5), bound in cloth, lettered, with Comprehensive Index, for £1 10s (or R18), carriage prepaid.

As a medium for English, American and Australian ADVERTISEMENTS of good; suitable for the tropics, India as well as Ceglon, the Straits Settlements, Javas and West Indies or connected with agriculture the Tropical Agriculturist stands unrivalled, the work being constantly in the hands of Native as well as European and American agriculturists. Being a Monthly Periodical, the Tropical Agriculturist lies on the table and is very often referred to during each month, a fact which advertisers will know how to appreciate. Mr W. T. Thiselton Dyer, F.Ls., Assistant Director of Kew Gardens, writing of the T. A., refers to it as 'an atonish repertory of everything relating to the economic botany of the East.'

For the sale of plants, seeks, machinery, implements, &c., used in tropical (tea,

sugar, fibres, &c.) agriculture, no better advertising medium exists. Rates for Advertisements.
